

Lokate

Revolutionizing Proximity Analytics

Lokate offers an innovative indoor proximity tracking system designed to revolutionize various business models. Our system provides valuable proximity data, enabling retailers, museums, gyms, and more to gain insights into visitor behavior and enhance their services.

Features

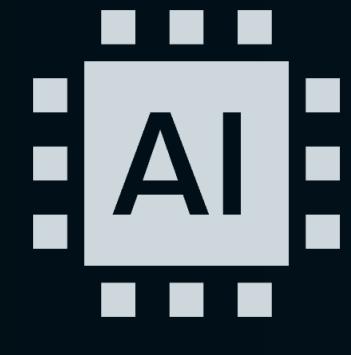

Real-Time Analytics
Monitor customer behavior and trends

Customizable Campaigns
Tailor marketing efforts to specific customer segments

Seamless Integration
Integrate our easy-to-use SDK to your application

AI-Powered Recommendations
Utilizes ML to recommend optimal campaigns tailored to your customers

Flexible Connectivity
Lokate uses BLE and allows for other tracking technologies, ensuring seamless integration and adaptability
